

MIRAGE

MIRAGE

A mirage with substance

The Mitsubishi Mirage is a shining new star with efficiency at its core. Granted it is compact, but it's "a triumph of packaging"*, providing sufficient legroom for four 6-footers yet at the same time offering a practical boot. True it's a flyweight, yet it remains comfortable and easy to drive with great body control over the lumps and bumps.

The Mirage's environmental credentials are exceptional. A willing and eager lightweight three-cylinder engine, a low kerb weight and excellent aerodynamics combine to ensure that all models emit 100 g/km or less, so low that they attract no road tax. It is also remarkably frugal, as demonstrated by its combined cycle fuel consumption figure of up to 68.9 mpg!

A choice of two gearboxes – a delightfully precise manual and a smooth and efficient CVT automatic – good all-round visibility and a best-in-class turning circle endow the Mirage with ultimate urban manoeuvrability. High levels of specification are on offer including traction control and an excellent safety package, even on the base model. "Good value and heroically efficient"**, this particular Mirage ticks every box in the real world.
